## **Explore Below the Thinking Mind Into the Living Matrix of our Conscious Body-Field and our Feminine Essence**

with Cornelia Gerken, ECP, HP, CMP

An International CoreSoma® Program for Women.

Three weekends of 3 days each provide a sacred container for this journey.

**Zagreb, Croatia**

**April 6 - 8 • August 31 - September 2 • December 14 - 16, 2018**

Much of what we attribute to our mind and thinking process is actually based in our somatic sensing, feeling body-field and it's own consciousness and intelligence. The roots of our psyche are deeply embedded in this somatic realm.

CoreSoma makes direct contact with this body-field, its vitality, memory, and knowing. In this way we can form a more integrated and kinder relationship with the conscious and unconscious aspects of our past and present.

**This program focuses on directly working with the body-field.**

- Especially learn to understand and direct different intentions through healing touch.
- Explore how to access body consciousness through direct verbal and non-verbal dialogue.
- Discover movement as a somatic language.
- Develop sensitivity to perceive and direct subtle energies.
- Attune to and growing awareness of different levels of consciousness.
- You will be guided to safely explore within yourself and with each other.
